

Week Five and Six Wrap Up

Due to the weather we continue to switch it up as much as we can.

Since it rained a lot the past few weeks we had to move our Slip and Slide fun to STEAM week! Finally we had a great day to enjoy the water ride! We enjoyed our STEAM week with building projects from volcanoes to boats to actual building structures in the woods. We painted to music as well as made slime creations. We enjoyed magic week with a special Magic show featuring magician Stephanie! The campers really enjoyed the interactive show! We learned card tricks and made up our own magic potion bottles. We hope to learn to juggle soon!
